

A close-up, top-down view of a black vinyl record on a turntable. The record has a bright red center label. A silver tonearm is positioned on the right side of the record, with its stylus resting on the grooves. The text "Chinook Project" is overlaid in white, bold, sans-serif font in the center of the record.

About Chinook

Chinook Music Services is a premier brand in the physical music records market, dedicated to delivering musical entertainment worldwide. With a global network of outlets and services, Chinook offers a comprehensive genre experience to its customers, ensuring diverse musical enjoyment for all.

Problem Statement

Chinook Music Services is a premier brand in the physical music records market, dedicated to delivering musical entertainment worldwide. With a global network of outlets and services, Chinook offers a comprehensive genre experience to its customers, ensuring diverse musical enjoyment for all.

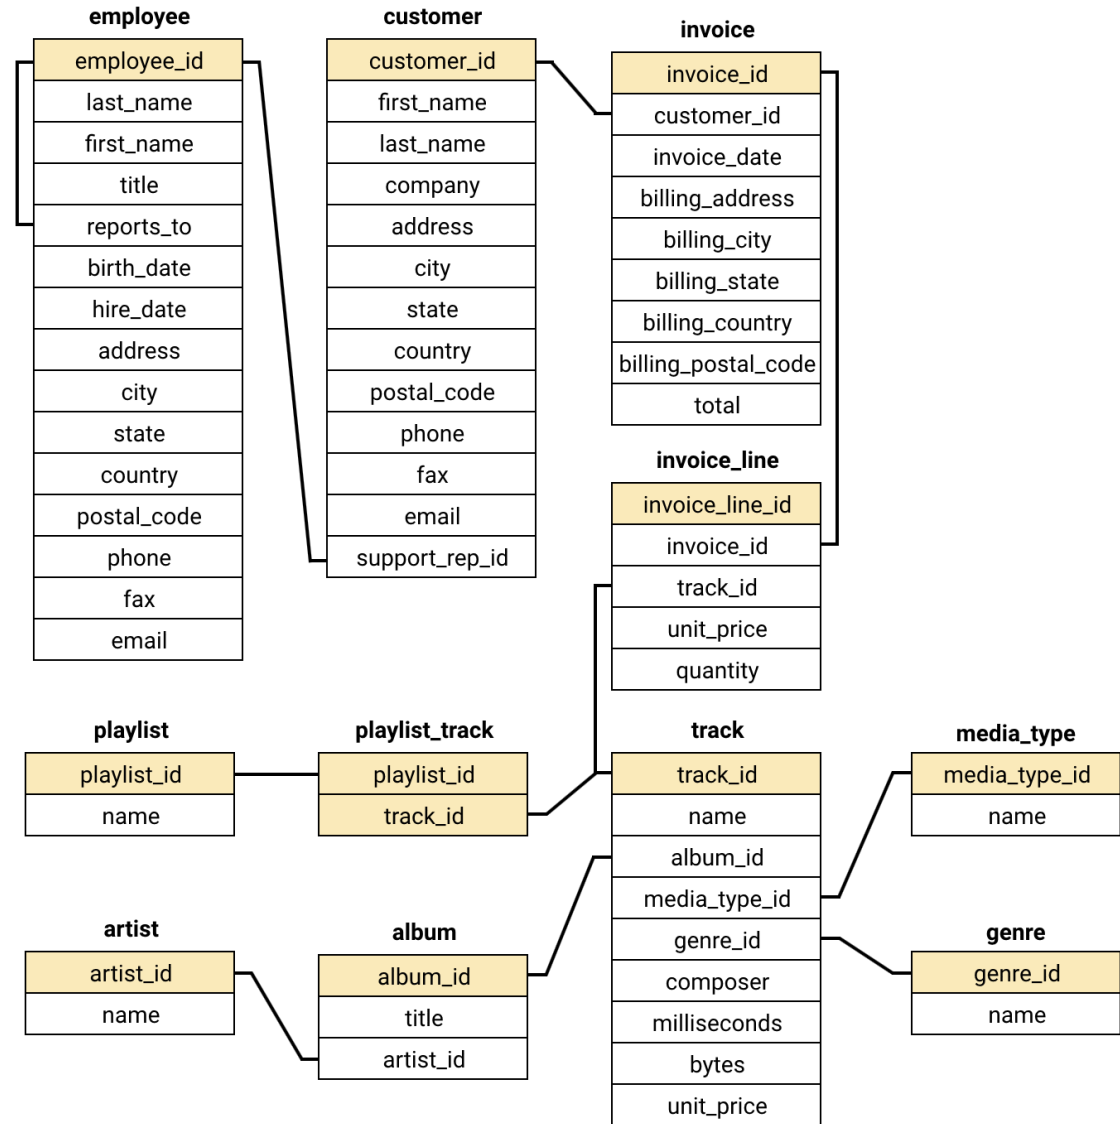

Data Overview

- The dataset consisted of 11 tables containing data related to the company.
- The company has customer base from 24 different countries across the globe.
- The tracks sold are of 25 different genres including Rock, Metal, Jazz & many more.
- It also includes information regarding the album and the artist related to a track.
- The invoice table records all the transactions in the company.

Database schema

Analytical Approach & Tools Used

Understanding the Data:

Familiarize with the structure, relationships, and metadata of the dataset

Cleaning the Data

Ensure the dataset is accurate, complete, and consistent:
Removed or handled NULL values using **COALESCE**, **ISNULL**, or **CASE**
Removed duplicates using **ROW_NUMBER()** or **DISTINCT**.
Standardized formats (e.g., dates, phone numbers).

Exploring the Data

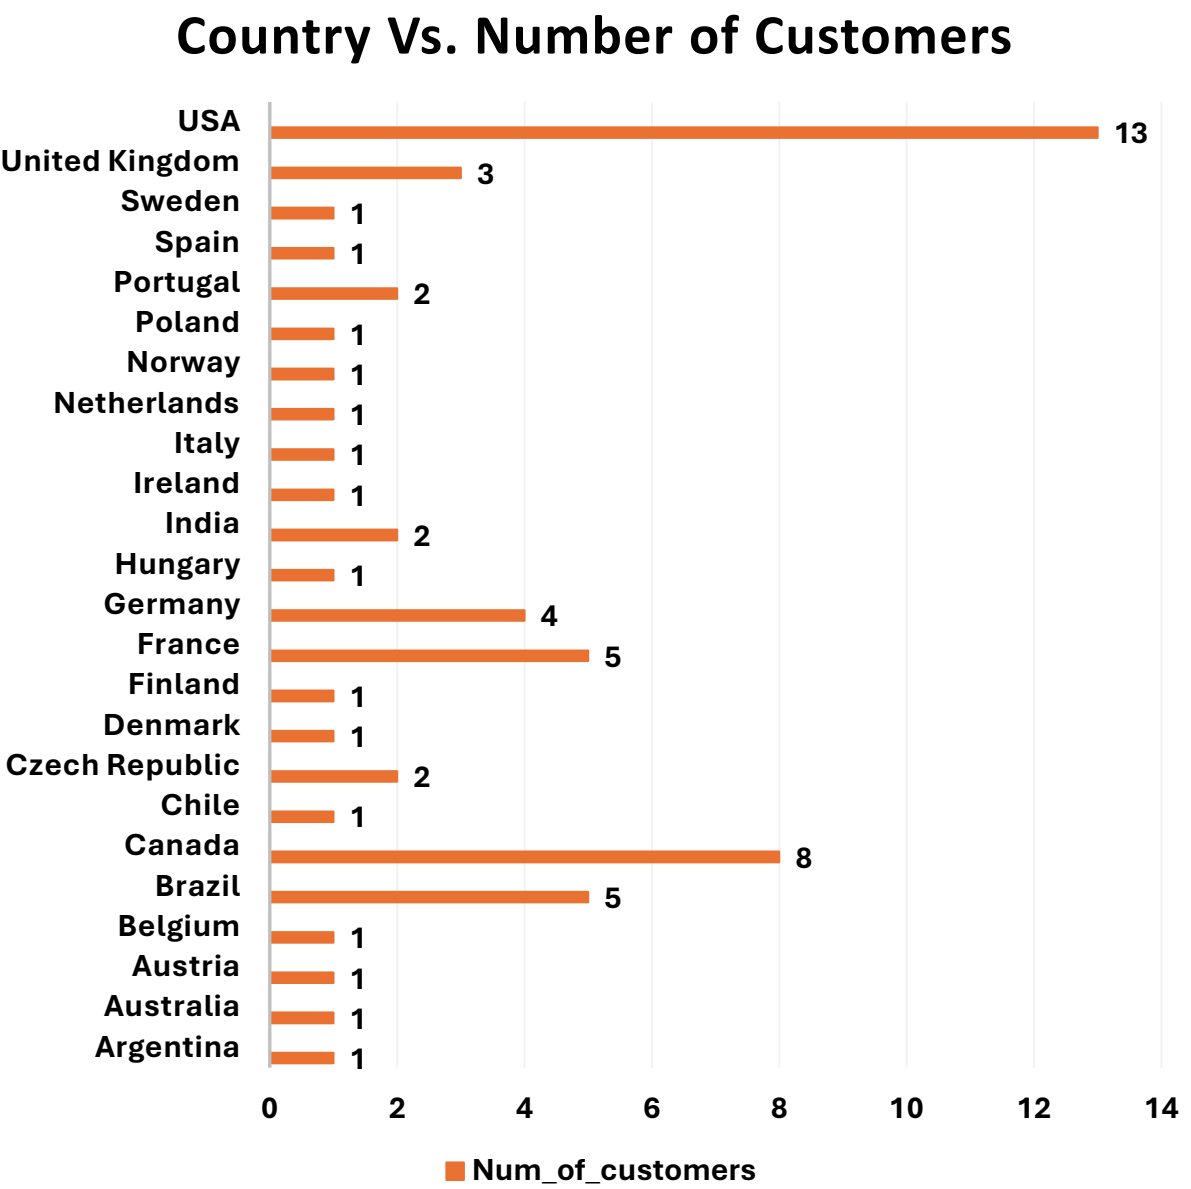

Used **GROUP BY**, **JOIN**, **WHERE**, **ORDER BY** to explore metrics.
Analyzed user behaviors, transactions, product trends.
Created temporary tables or views for iterative testing.
Performed aggregations: **SUM()**, **AVG()**, **COUNT()** etc.

Deriving Key Insights

Identified top-performing products, regions, or time periods.
Segmented customers based on purchase history or frequency.
Predicted potential opportunities or risks.
Shared insights with stakeholders in a structured report.

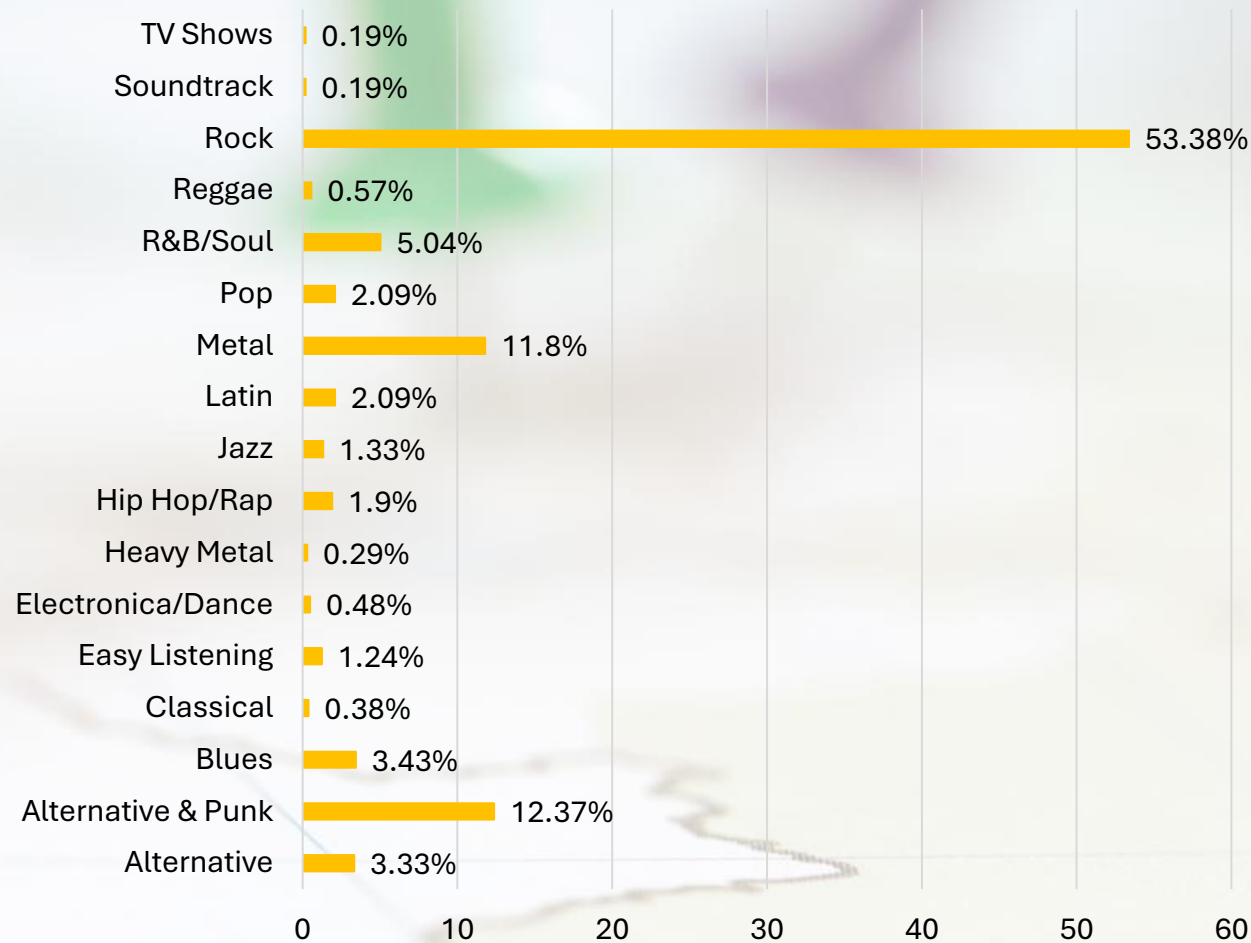

Customer Demographics by Country

Sales Contribution by Genre – USA

- Rock dominates the market share in the U.S.
- Focused promotions on Rock, Alternative & Punk, and Metal could boost revenue.
- Genre-specific campaigns may help drive engagement in key listener segments.

Percentage_Contribution of Genres in USA Sales

Customer Churn Rate Analysis

40.82%

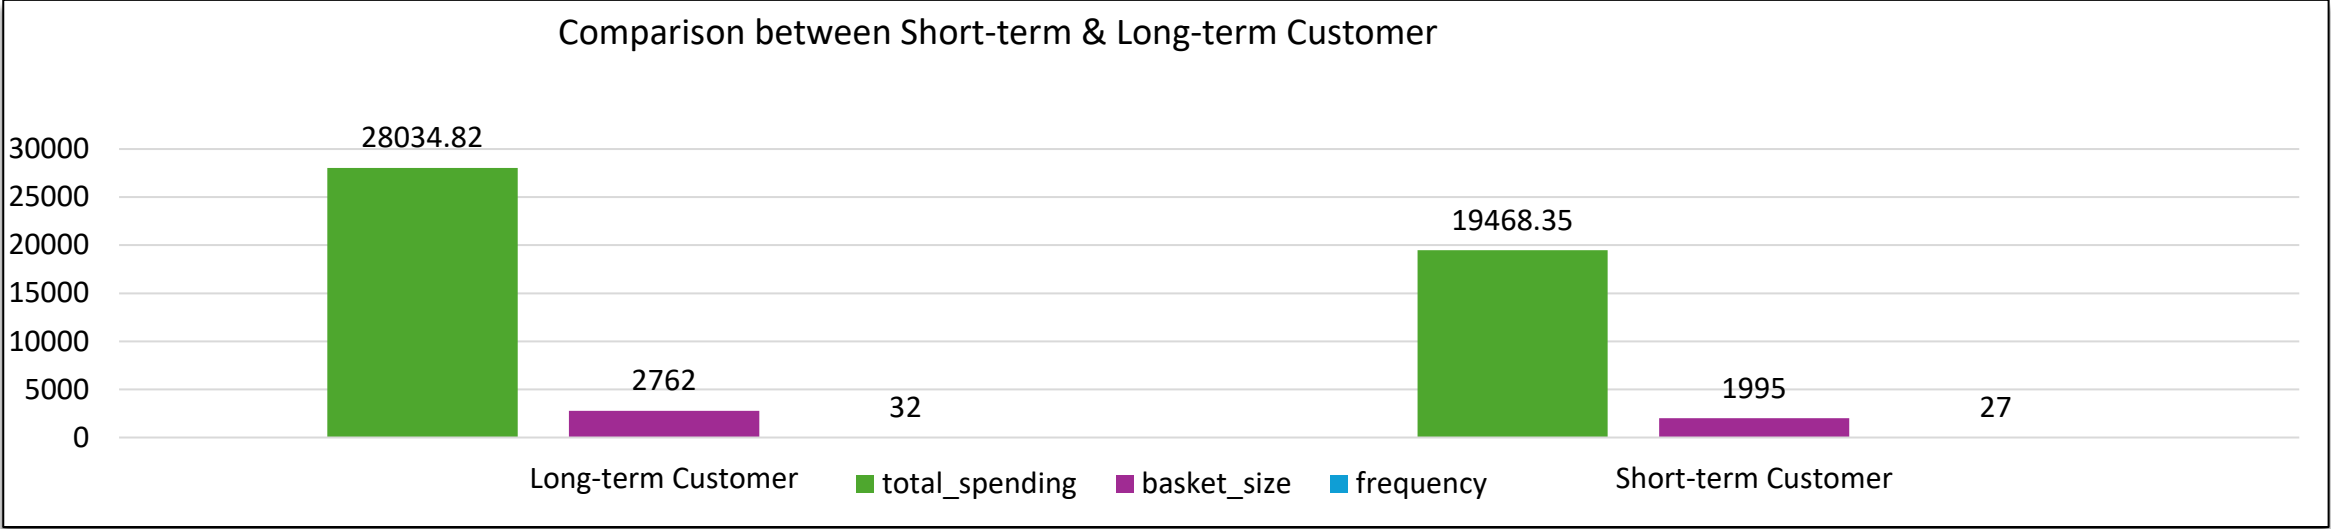

Key Takeaways:

- It shows that the customer retention is not good in the company.
- The number of customers lost are high and needs immediate action to maintain the customer base.
- New Promotional Campaigns, Music Festivals and Sale Months should be launched so as to attract more customers.
- Better customer service can also help in decreasing the churn rate.

Customer Purchasing Behaviour Analysis

An evaluation of purchasing behavior between long-term and new customers highlights the value of customer loyalty in driving revenue.

Key Insights:

Long-term customers outperform new ones in:

- Purchase frequency
- Basket size
- Total spending amount

Higher engagement and repeat purchases reflect stronger loyalty.

Strategic Takeaways

Customer loyalty has a direct impact on revenue growth.

Investing in **retention strategies** like personalized offers, loyalty programs, and consistent engagement can yield long-term benefits.

Focusing on nurturing existing customers may be more cost-effective than acquiring new ones.

Recommendations

Launch **customer retention campaigns**.

Implement **rewards programs** for repeat buyers.

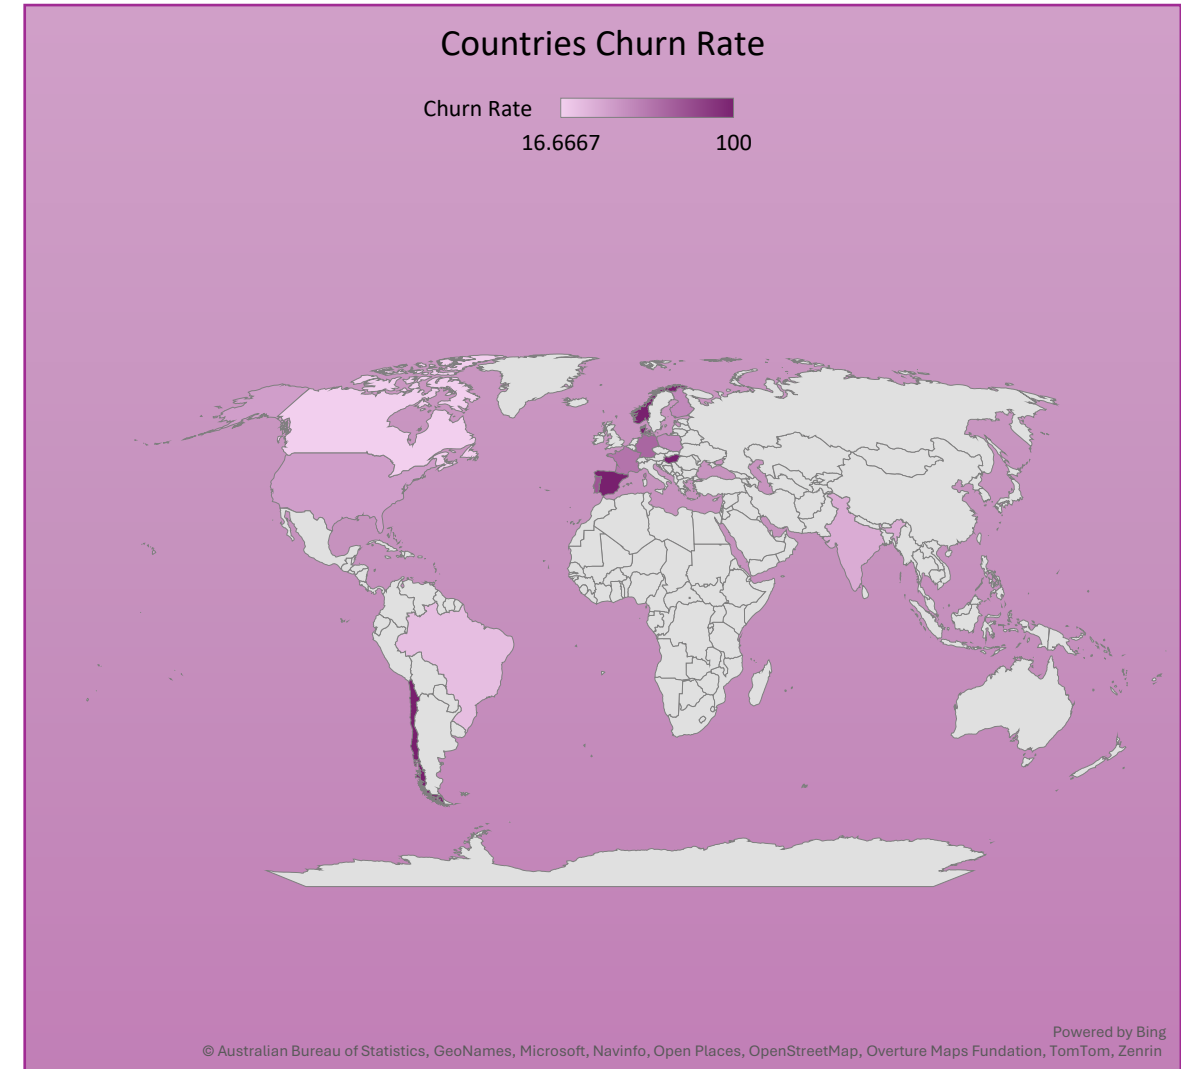

Use **purchase behavior analytics** to tailor experiences for long-term users.

Regional Market Analysis:

This analysis explores how purchasing behavior and churn rates vary across different geographic regions, with a focus on demographic and economic influence

Key Takeaways: -

- It is evident that the countries in Europe are having high churn rate.
- It shows that economic factors play a crucial role in the sales of the company.
- Therefore, a greater number of advertisements should be launched in the countries with high economy and cheaper tracks should be sold in the countries with low economy.
- Population of countries also affect the sales.

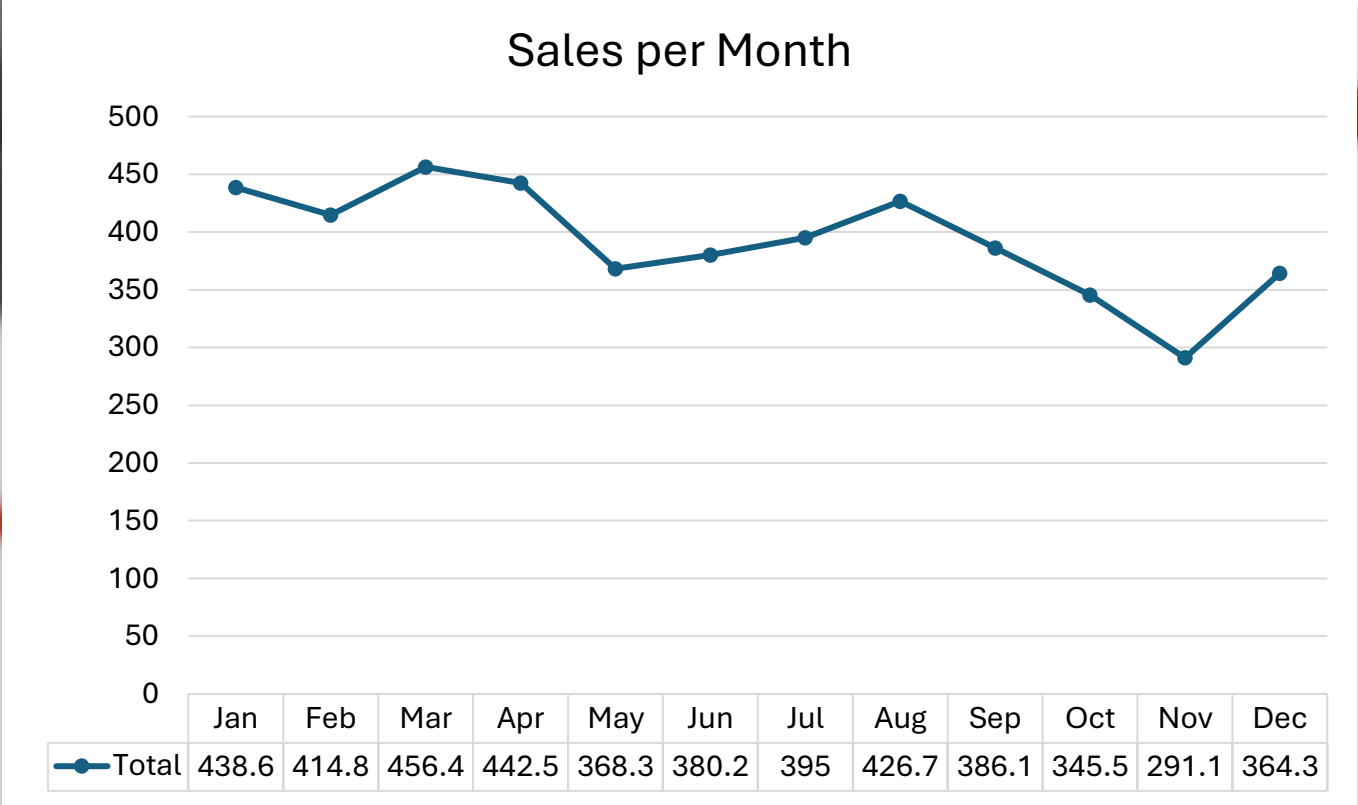

Customer Risk Profiling & Spending Trend Analysis

Analyzing customer attributes (age, gender, location, purchase history) to identify segments at higher risk of churn or reduced spending.

Key Takeaways: -

The overall sales per month has a decreasing trend which shows that the sales had gone down during the 2nd last quarter .

But during last quarter sales are again increasing. Therefore, it is seen that new promotional campaigns need to be done in those countries to reduce churn rate as well as maintain & increase the spending.

Recommendations

The company should focus on expanding its services to more number of countries to increase its customer base.

The company should work on decreasing the churn rate in the recommended countries.

Also, customer retention should be the first priority so that revenue can be increased.

USA market should be focused and more promotional campaigns should be launched.

Recommendations

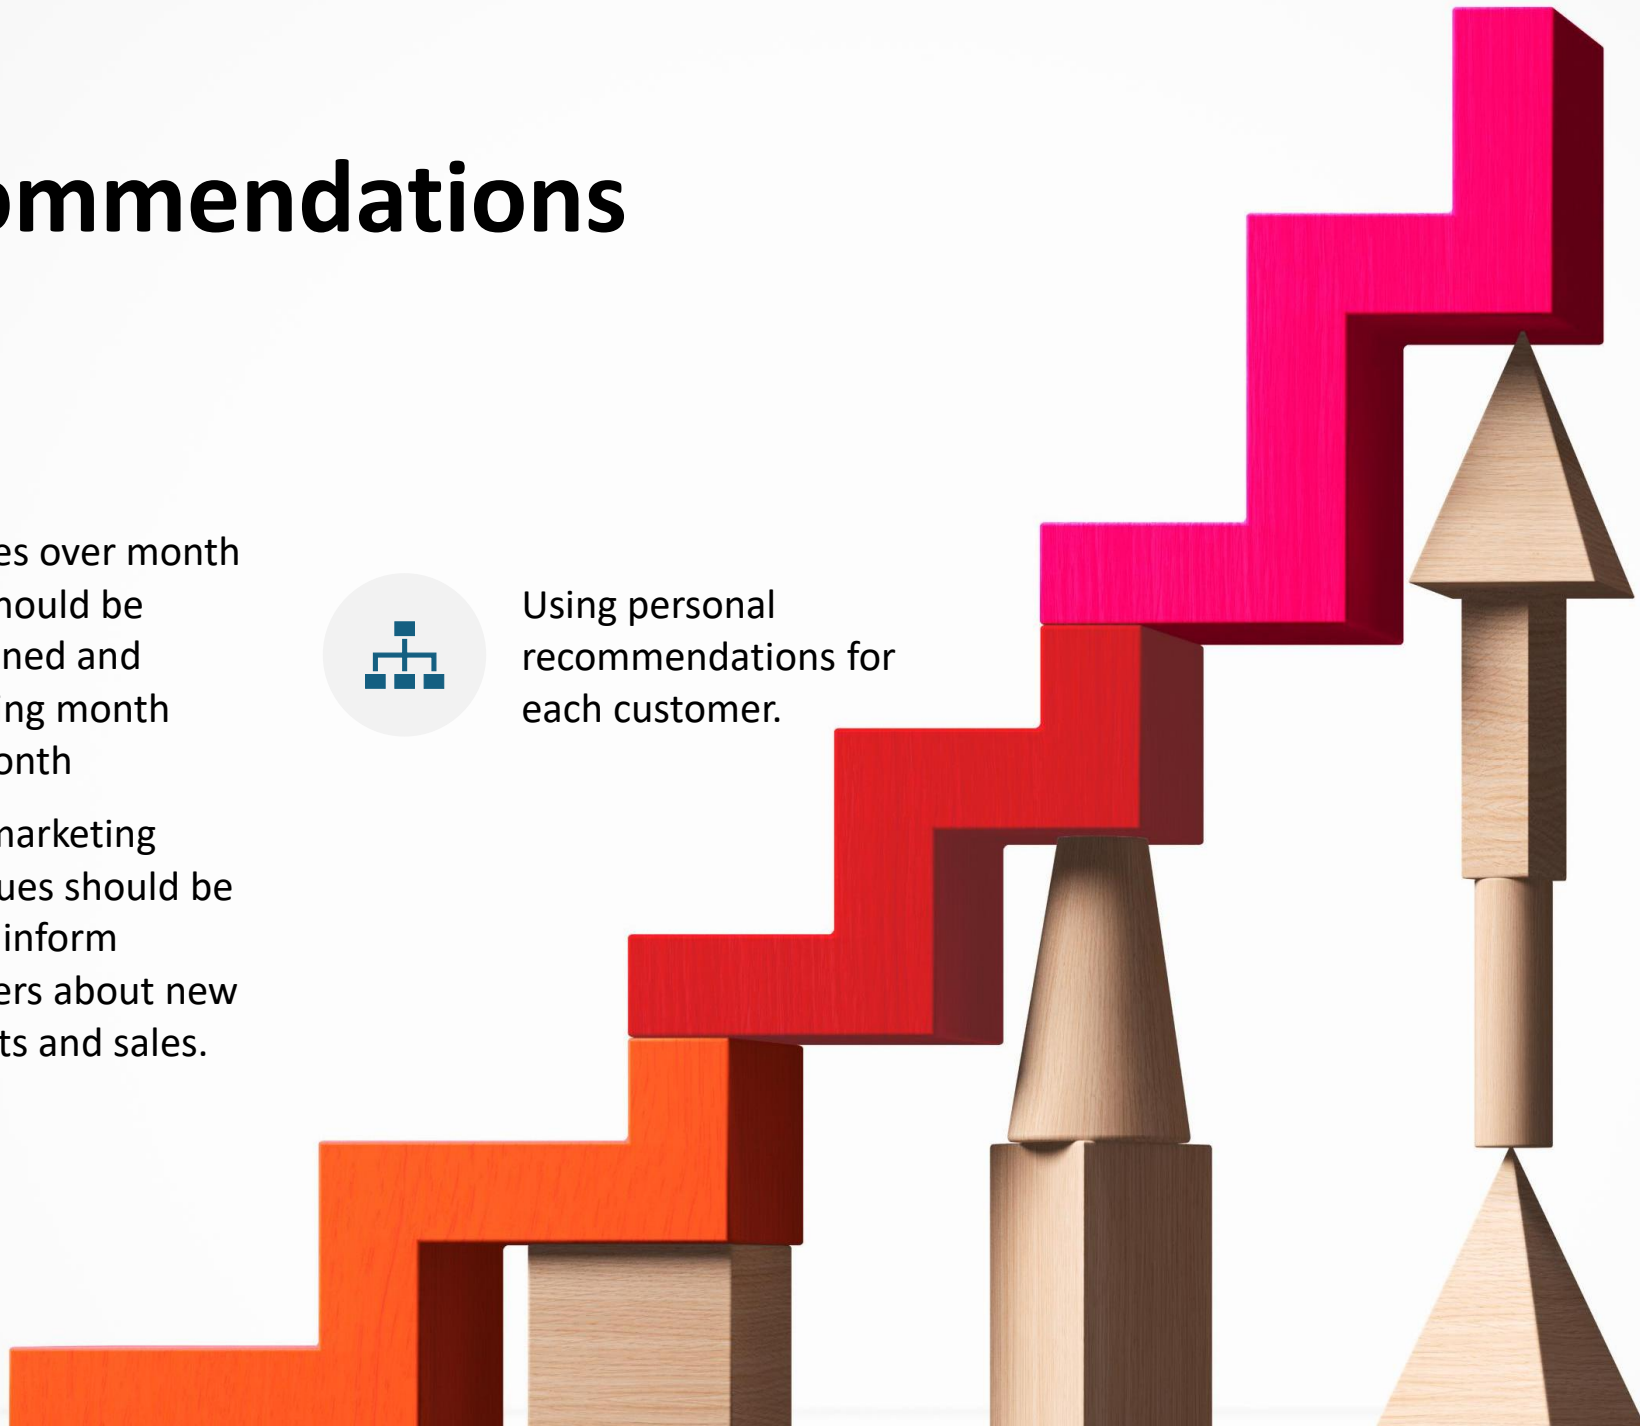

The sales over month trend should be maintained and increasing month over month

E-mail marketing techniques should be used to inform customers about new discounts and sales.

Using personal recommendations for each customer.

Conclusion

- Identified trends based on country, genre and artist.
- Company needs more promotion and marketing and expansion in market size.
- Customer retention will help in increasing the revenue of the company.
- Analysed key performance metrics such as:
 -
 - Frequency of purchases per customer.
 - Basket size of each customer.
 - Spending amount of each customer.

A person dressed as Santa Claus is lying face down in a snowy landscape. The person is wearing a red suit with white trim and a black belt. A red sack, presumably for gifts, lies on the snow to the right of the person. A series of footprints leads away from the person towards the top left of the frame. The scene is captured from a high angle, and the overall tone is somber.

Thank You
